

AMET Webinar

Wednesday 2nd Dec 2020

4:00 – 5:00pm

Hybridisation of teaching in 2020/21: Gains and losses

This webinar offers the chance to listen to Professor David Read, ex-Chemistry teacher and now Professorial Fellow at the University of Southampton, present his thoughts on the complexities of delivering university teaching in both online and in-person contexts. The session will reflect on the successes and failures experienced, and will draw on the student perspective. You will be able to discuss the ideas in breakout groups, with the aim of identifying strategies that will enable us to rescue the pedagogy and enhance the learning opportunities for students as they continue work through this unique academic year.

Date: Wednesday 2nd December 2020

Time: 4:00 – 5:00pm

Location: You will receive a link to a Zoom online meeting once registered

Who is this webinar for?: Primary and secondary ITT providers

Format:

- Presentation from David Read for 20-30mins
- Small group discussion in breakout rooms to develop student learning opportunities
- Short plenary

Free and open to AMET members and non-members

Booking is now open in Eventbrite:
